sameh.chargui@certe.rnrt.tn

Chargui Sameh, Dr. Eng in managing water resources in rural areas. She obtained a PhD degree from National Agronomic Institute of Tunisia, University of Carthage, Tunisia. From 2012 -2014, she was employed as an associate professor in Hydraulic and rural Engineering at the Higher Institute of Environment, Urbanism and Building Technologies, Tunisia. Actually, she is a researcher-associate professor, in the Georesources Laboratory, Water Research and Technology Centre, Tunisia.

Her research interests include hydrology, rainfall-runoff modeling in water-scarce regions, and the impacts of climate change and rainfall variability on water resources (particularly in semi-arid areas).
